The Official Letter dated March 25, 2003, has been received, and in response thereto applicant elects claims 10-15, drawn to a formulation of a topical beta-blocker.

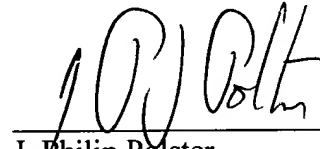

Without waiving his right to file a divisional application directed to the non-elected claims, applicant requests that in the event that allowable subject matter is found, claims to the method of making and using the formulation may be joined or rejoined to the application, so long as they contain all of the limitations of the allowed formulation claim.
